

“Young Professionals’ visions on the future EU role for Public Health policy”

Clemens T, Rosenkötter N & Brand H

Department of International Health

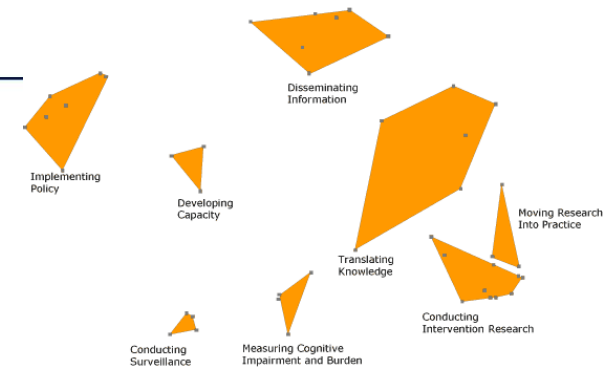

The starting points

- 20years mandate for EU health
- Expiring EU Health Strategy 2008-2013 (now extended)
- Mixed evaluation results of Strategy and Programmes
- New or changing PH challenges (crisis, rising inequalities, ...)
- Discussions on the future architecture of the EU

= > The next EC's Health Strategy that ultimately improves population health should address...

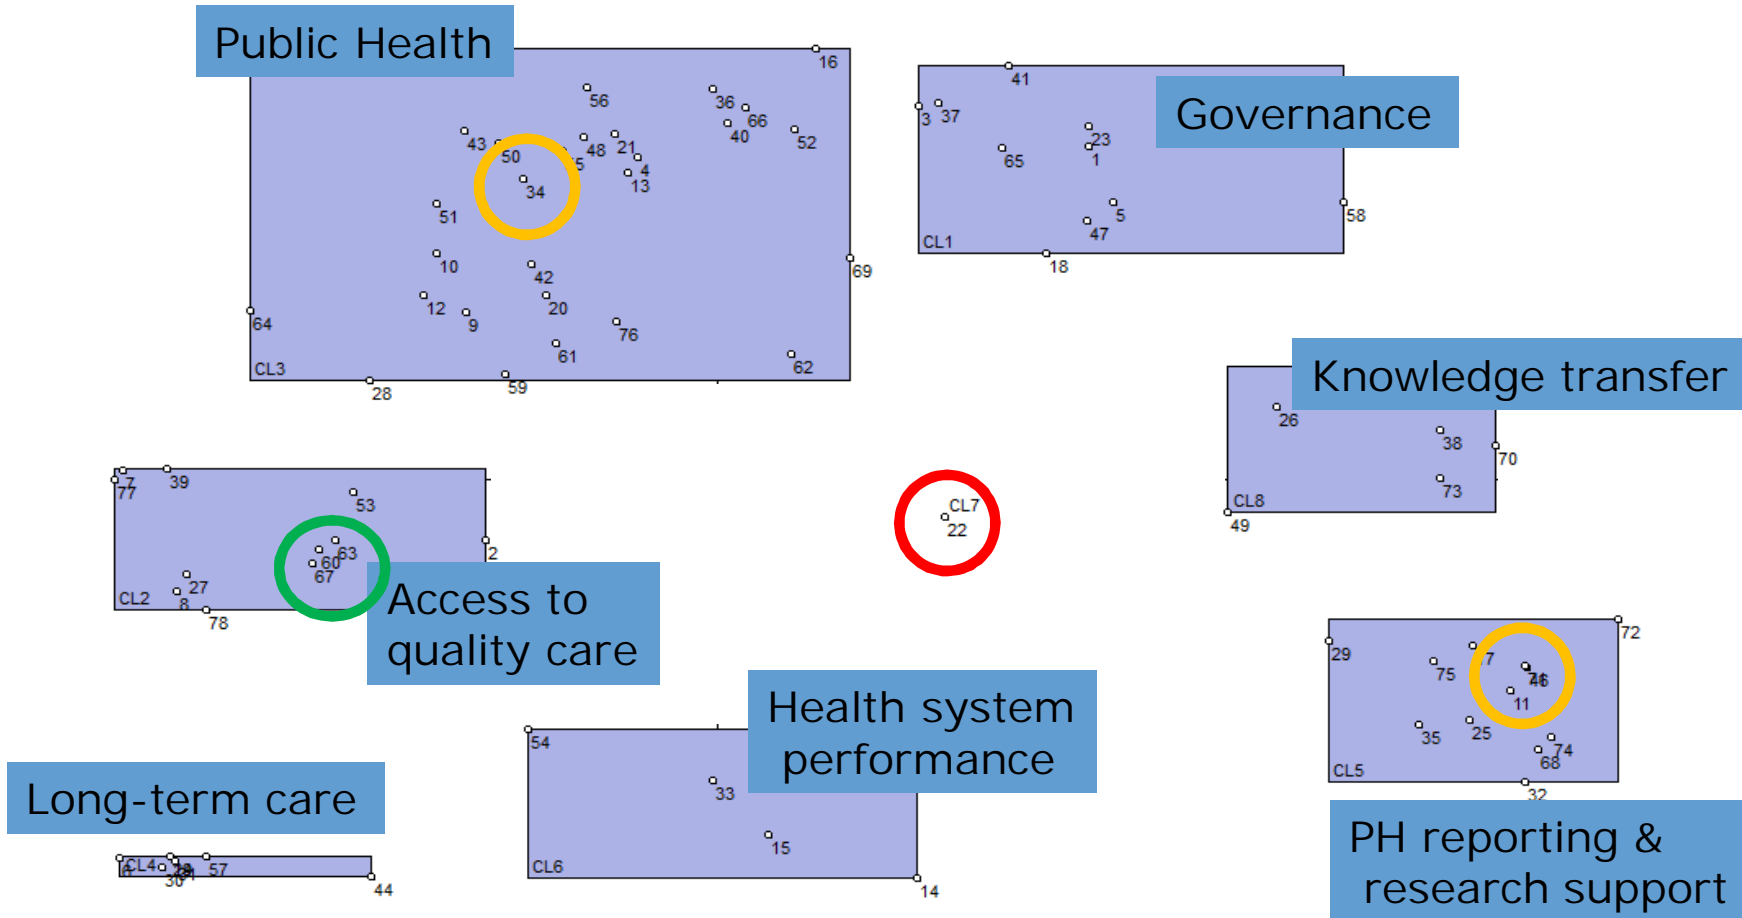

A concept mapping

- Participants have generated, rated & grouped statements
- Use of software (Ariadne) to pool responses
- Examples:
 - (63) quality of healthcare products
 - (60) production of new and active pharmaceutical agents in Europe
 - (34) social inequities
 - (46) establishment of a continuous PH reporting mechanism

= > Generating a "map" including clusters

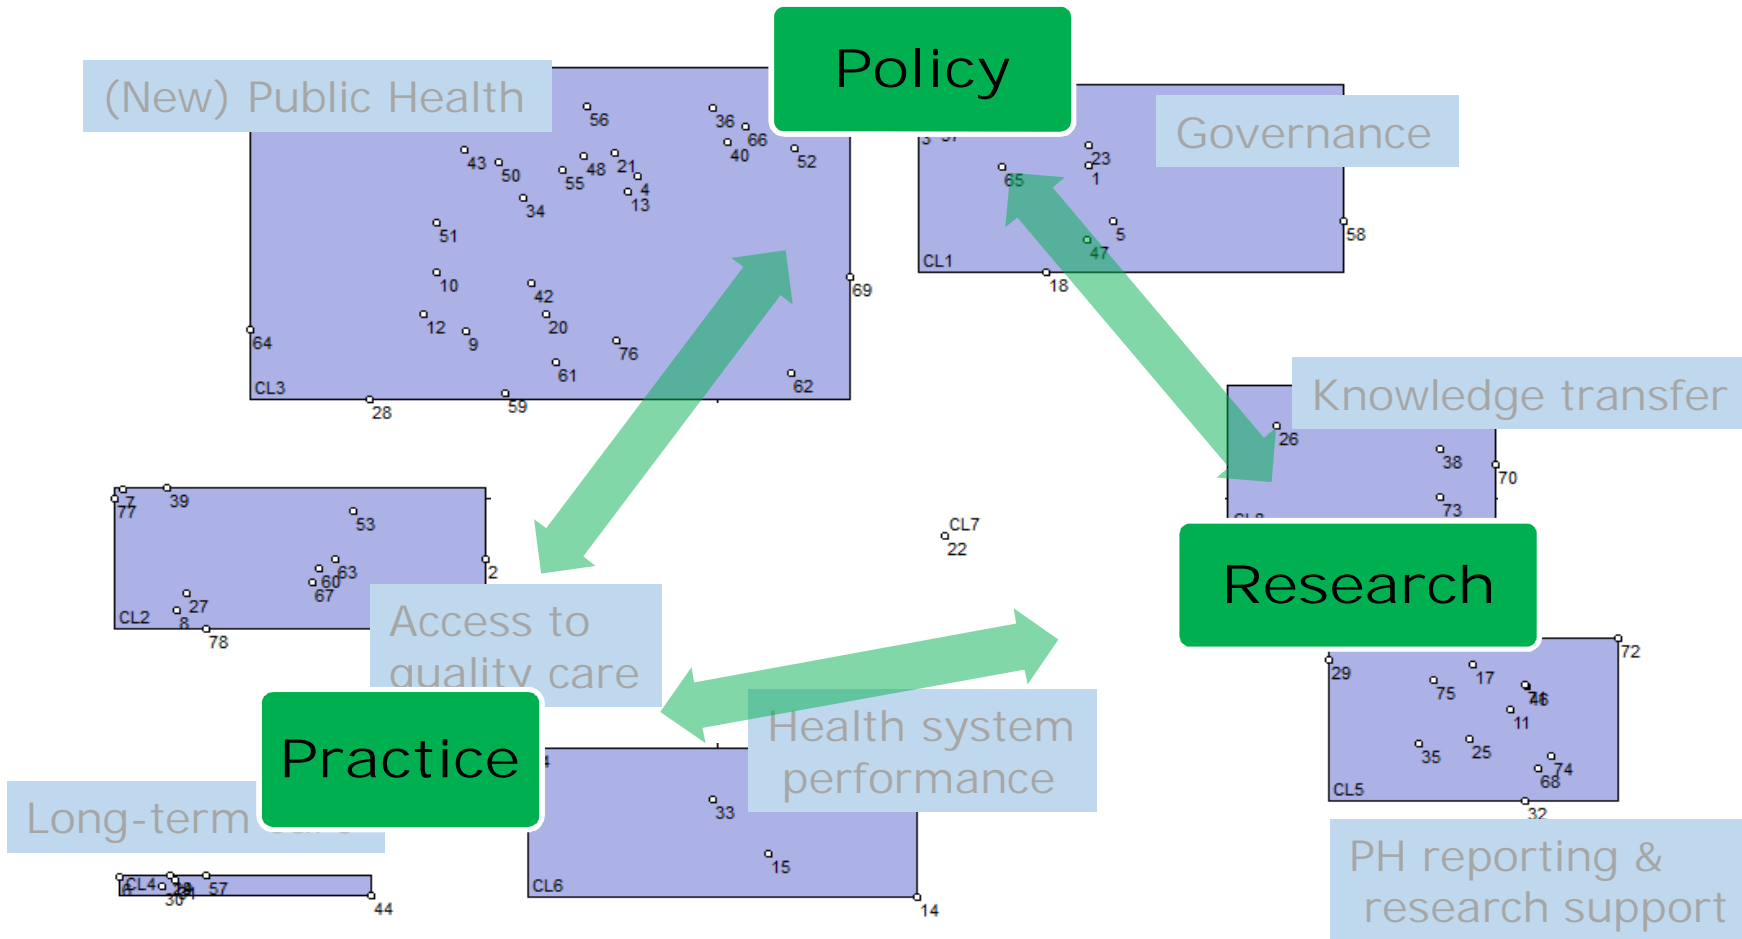

Concept Map- an overview I

Public Health

Concept map- an overview II

Results

- + care
- + research
- + “process factors” (governance, capacity building, knowledge transfer)
- Health threats
- Health is Wealth
- ! **Quality of Life as unique theme**
- ! Global Health
- ! Diversity of PH topics

... see you tomorrow
